

## Cannabis & Cancer

**Ask Eloise Theisen, MSN, RN, AGPCNP-BC, a medical professional about cannabis use, its affects, and how to find a reputable source.**

For more information on her background, see back of flyer.

**Date: Friday, March 22, 2019**

**Time: 6:30-8:00pm**

**Location: Cancer CAREpoint  
Resource Center**

**2505 Samaritan Drive, Suite 402,  
San Jose, CA 95124**

### COMMON QUESTIONS

- ✿ What is THC and CBD?
- ✿ What will cannabis do to my body?
- ✿ How will I feel?
- ✿ What if I don't want to get high?
- ✿ How do I use it?
- ✿ Do I smoke it, eat it, or rub it on my skin?

### INFORMATION

- ✿ Topicals can treat itchy, painful areas of the skin.
- ✿ Cannabis can reduce side effects associated with chemotherapy, biotherapy, and radiation.
- ✿ Your body has an endocannabinoid system.
- ✿ There is no one dose fits all.

**Eloise Theisen, GPCNP-BC**, is a co-founder and the Chief Visionary Officer of Radicle Health. Prior to Radicle Health, Eloise founded Green Health Consultants, a medical cannabis clinic that helped patients use cannabis to help treat chronic and age-related illness. She is one of the first healthcare practitioners to bring a clinical dosing regimen to the cannabis space and she has treated more than 4,500 patients using cannabis. There are very few healthcare practitioners in the United States with a comparable level of cannabis expertise and experience.
